

At **CUProdigy** we provide solutions by fostering **innovation** and cooperation with our internal and external clients. **WE** are a Core and Cloud Credit Union Service

Organization (CUSO) headquartered in Salt Lake City, Utah. Built from the ground up by a group of credit union leaders who wish to drive their technological destiny and provide greater options to others like them. Through the years, we've dubbed ourselves Prodigies differentiating our unique value proposition. What sets **US** apart is our commitment to **collaboration** and **trust**. CUProdigy is currently seeking a **Data Conversion Prodigy** who is made up of a two-to-one ratio of contagious culture and skill. We believe in building a better organization by connecting with remarkable hearts and minds of talented individuals like **YOU**. Are you ready to go beyond remarkable?

#### **Our Data Conversion Prodigy will:**

- Collaborate with the Project Manager to create timelines and communicate with client and team members, assessing progress of deliverables from conception to completion.
- Effectively communicate and collaborate within a cross-functional team to accurately and efficiently resolve problems and client inquiries
- Assist customers with their data extract, explaining the conversion process, defining data requirements, and working with them to correct data in their legacy systems and prepare for the data conversion cycle
- Create and establish data feeds that allow for automated reconciliation and reporting
- Review and evaluate the existing data sources and analyze the conversion steps required
- Re-engineer inefficient processes with the goal of improving system automation, speed, accuracy, and operational workflow
- Leverage SQL and Excel to gather and analyze data to resolve problems and inconsistencies
- Import, normalize, enrich, load, and validate data using state-of-the-art software tools and systems
- Facilitate six to eight core conversions per year.

#### **Our Data Conversion Prodigy is/can:**

- Effectively translate the needs of the client within the cross functional team environment, acting as the conduit between the layperson and the development team.
- Leverage their SQL and data structure experience to augment the needs of the Support team.

- Strategize with development teams to improve our client on boarding experience, shorten delivery time-frames, and develop repeatable, scalable processes
- Comfortable importing and exporting database files from multiple sources.
- Work on a dynamic and fast paced team, applying your analytical and problem-solving skills for maximum impact across the organization and industry
- Must be detail oriented with strong organizational skills to multitask projects simultaneously with the ability to commit to and deliver projects on time

**Our Data Conversion Prodigy possesses:**

- Minimum of three years of enterprise resource planning (ERP), ETL or financial implementation and data conversion experience
- Minimum of three years experience working with clients where analytical and technical problem solving was required
- Experience with HTML, SQL, XML, Java, Bash and Microsoft Suite of products
- Strong knowledge of ETL processes, data migration, data conversion, and/or data integration routines and protocols
- Associates Degree in Computer Science or related field required, BSBA preferred.

**Our Commitment to You:**

- Salary Range \$52,513 - \$74,800
- Contagious Company Culture in a flexible working environment
- Team focused culture committed to innovation and collaboration
- Commitment to professional development and growth opportunities
- Competitive salary and dynamite benefits package; traditional and boutique
- 401k with a 4% company match
- Paid Time Off + Paid Holidays + Paid VTO
- Quarterly Community Giveback Initiatives
- Telework for the right candidate available
